

# EASY PLAST 40Kg.

## DryMix Cement PLASTER

EASY PLAST Ready use Plaster is a carefully proportioned blend of high-quality raw materials including well graded fine sand, High quality cement and special performance powder additives.

## KEY FEATURES

- Excellent workability & superior finish
- Superior quality
- Less wastage and better yield
- Less rebound loss
- Saves time

## ADVANTAGES

- High quality & easy storage
- Less wastage & minimization of losses
- Excellent workability
- Higher productivity & saves time

## USES & APPLICATIONS

All kinds of masonry and general purpose plastering works.

• External plastering of walls • Internal plastering of • AAC block plastering work • Other general walls & ceilings repair & patch work

## SURFACE PREPARATION, MIXING & APPLICATION

Surface should be cleaned properly by removing all loose particles, oil grease etc. Surface needs to be pre-wetted with clean water

Pour required quantity of EASY PLAST Ready Use Plaster into water (14-18%) to get desired consistency.

For mixing use spiral mixer at low speed in a clean bucket. Mix well to obtain a lump-free smooth paste.

Briefly stir the mixture before application & use this within pot life. Post application curing should be done for 3-4 days.

## TECHNICAL PROPERTIES

- Mixed density : 1.90-2.1 kg/litre
- 28 Day comprehensive strength : 10-15 mpa
- Pot life : 30-50 minutes
- Bulk density : 1.6-1.8 kg/ litre
- Pull-out bond strength :  $\geq 0.5$  mpa
- Water-powder ratio : 14-18%

## COVERAGE

A 40kg bag of EASY PLAST Ready Use Plaster 101 covers 15-20 sq. ft. at coverage of 10 - 12 mm thickness. Coverage depends upon quality and nature of substrate being used.

## PACKAGING, SHELF LIFE & STORAGE

- Available in 40kg Ad Star bag
- 6 months from the date of manufacturing
- Store in a dry place away from moisture
